Objective

Self-motivated individual seeking opportunities to gain hands-on experience and apply my programming and problem-solving skills in real-world projects. Eager to expand my knowledge in software development, data science, and emerging technologies.

Education

Walchand Institute of Technology, Solapur | B.Tech in CSE |3rd Year | CGPA: 9.73 (as of IV Semester)

Class 10th | ST John's School ,Allipur | 2020 | 95.2 %

Class 12th | Kids Mentor Global School , Nagpur | 72.67%

Skills

Programming Languages: C | Python | Java

Core Concepts: Data Structures & Algorithms, OOPS , Databases

Soft Skills: Communication, Teamwork, Leadership, Quick Learning

Projects

- **Optimizing Traffic Light Timer**
 - Analyzed traffic density from surveillance footage.
 - Adjusted signal timing dynamically based on density using logic.
 - Reduced average waiting times and improved emergency route efficiency.
- **CAPTCHA Refinement Using ML (SIH 2024 Project)**
 - Built an ML-based solution to refine CAPTCHA systems.
 - Participated in Smart India Hackathon 2024 under "Algo Ninjas" team.
 - Aimed to increase accessibility and accuracy of CAPTCHA-based verifications.

Certifications

- Python Programming – Infosys Certified
- C Programming – Intermediate

Extracurricular Activities

- Active member of Computer Society of India (CSI) | Event Management during School Gatherings
